Summary

Highly motivated MCA graduate seeking an opportunity in software development. Proficient in Python, Java, and web technologies, with strong problem-solving skills and hands-on experience in academic and project-based applications.

Skills

Programming & Querying: Java, Python, HTML5, CSS3, JavaScript, MySQL, MongoDB.

Core CS & Methodologies: Object-Oriented Programming (OOP), DBMS, SDLC, STLC.

Data Science & ML: Machine Learning, NumPy, Pandas, SciPy, Matplotlib.

Tools and Platforms: Git, GitHub, Postman, Google Firebase.

Soft Skills: Design Thinking, Continuous Learning, Team Collaboration, Adaptability.

Experience

Web Development Intern

August 2025 – October 2025

VaultofCodes (Remote)

Tools Used: HTML, CSS, JavaScript, Git, GitHub

- Developed and maintained responsive web pages using HTML, CSS, and JavaScript following clean coding standards.
- Improved UI functionality and layout performance, optimized layouts and enhanced overall user experience.
- Collaborated with mentors to understand project requirements, debug issues, and implement feature enhancements efficiently.

Projects

AI-Enabled At-Risk Individuals Finder | Python, JavaScript, Flask, OpenCV

December 2024 – April 2025

- Designed a web-based system to identify and track missing individuals using facial recognition.
- Implemented real-time face detection and matching using OpenCV and dlib with Flask backend.
- Integrated live CCTV processing, automated email alerts, and SQLite for secure data handling.
- Optimized model performance by fine-tuning detection parameters and improving accuracy, reducing false positives and enhancing real-time recognition efficiency.

Detection of Animal Road Crossing and Collision Avoidance | Python, YOLOv5

June 2024 – August 2024

- Implemented CNN and YOLOv5 models for animal detection and collision avoidance systems.
- Trained models using Kaggle datasets and optimized hyperparameters for improved accuracy.
- Achieved 90% accuracy in animal species detection through model tuning and retraining.
- Presented the project at the 24th SET Conference, VIT Vellore.

Awards & Certifications

- **Google Data Analytics Certificate – Coursera (2025):** Completed 8 practical case studies involving SQL, data cleaning, dashboards, and presentations. [View Certificate]
- **IBM Full Stack Software Developer – Coursera (2025):** Completed a certification by IBM covering front-end, back-end, and cloud-based application development and built hands-on projects using modern technologies like React, Node.js, and databases. [View Certificate]
- **Fundamentals of Deep Learning – Nvidia (2023):** Completed training on neural networks, CNNs, and hands-on model development using GPU-accelerated frameworks. [View Certificate]
- **HackerRank Certifications – 2024, HackerRank:** Earned certifications in Java, SQL, and Python, demonstrating proficiency in programming, database queries, and problem-solving. [View Profile]

Education

Master of Computer Applications

Graduation: 2025

VIT University, Vellore

CGPA: 8.59 / 10

B.Sc. Computer Science

Graduation: 2023

VIT University, Vellore

CGPA: 8.51 / 10
